Art Unit: 2891

1. Claims 1 – 24 are allowed.
2. This supplemental notice of allowance explains the allowability of the product by process claims 21 – 24. It is noted that product-by-process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps. “[E]ven though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process.” *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

The following is an examiner’s statement of reasons for allowance: applicant claims in claims 21 – 24 a novel transistor. This transistor, in the context of the entire claim, comprises a device formed of a photopolymerized high order silane silicon layer and thermally oxidized silicon oxide layer formed from the silicon layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian Wilson whose telephone number is (571) 272-1886. The examiner can normally be reached on weekdays, 7:30 AM to 4 PM.
